

SABRETOOTH TECHNOLOGIES

HOSPITALITY HUB

The Premier Hospitality Operations Software Suite

SabreTooth Technologies is an independent, privately owned hospitality and restaurant operations software and service provider. Our product, Hospitality Hub, provides excellent hospitality solutions for universities and hospitality establishments across the United States and Canada. Our focus is to create high quality software and provide superior support. In doing so, we have spent time learning from and collaborating with organizations and individuals serving in all parts of the hospitality and food service operations industries. Through time, SabreTooth has evolved into a leader in both hospitality and restaurant-based software.

With over 18 years in the hospitality and restaurant industries, SabreTooth knows what customers need to maintain excellent hospitality operations. All customers have the common goals of eliminating work, decreasing costs, and increasing efficiencies. We make all this possible with our Hospitality Hub software and its integrated modules including:

- **Food Service Operations**
- **Catering**
- **Guest Accommodations**
- **Conference Services**
- **Online Registration**

Hospitality Hub has been built and based upon working for, collaborating with, and learning from university food service operations professionals, catering directors, and event and reservation managers.

With Hospitality Hub, you can seamlessly manage any food service and /or accommodations activity – from weddings or parties to multi-day conferences with sub-events. Executive dining, residence hall dining, and stand-alone restaurants are all supported by Hospitality Hub. Utilizing a modern, easy to use interface, the Hospitality Hub solution offers you unparalleled reliability, functionality and control over every aspect of your food service operations, events/venue management and reservations administration ... from marketing, to the initial quote, to contract management, to final journaling in 3rd party accounting and payroll systems.
