PUC Self-Serve Automated Pick up Cabinets

The First Ever Smart Cabinet System

A Contactless Order Pick Up System - Simply order from a meal plan app and easily pick up your food.

Features & Benefits

-It's safe: secure cabinets can be opened with a pin or QR code

-It's fast and convenient: it reduces service time by 75% and allows for speedy pick up by customers

-It reduces labour costs

-It provides data analytics and easily integrates into any POS ordering platform

-It allows you to grow your To-Go Order business

-It's available in heated & ambient cabinets that can be configured for your operation

-It's expandable: multiple cabinets can be connected

More info

How it works

1. Customer Places Order
2. Order is Received
3. Food Prep Begins
4. Prepared Food is Stored in PUC Unit
5. Customer Receives Text with QR Code
6. Code is Scanned and Food is Received
