

# STREAMLINE YOUR FOOD SERVICE OPERATIONS

Manage your team, maintenance, parts/inventory, and reports...all with a single easy to use app.

## Team Task Management

Assign, track, and send reminders for tasks to keep your team accountable and organized. Take photos, upload documents, and communicate in real-time so everything is recorded and nothing is forgotten.

## Maintenance Management

Quickly document and report facility, equipment, and IT issues. Assign and contact maintenance personnel straight from the app, monitor costs and time, and track progress so you're always in the know.

## Parts/Inventory Management

With parts and inventory management, vendor integration, and priority, status, and task setting, you'll ensure essential supplies are always stocked and ready.

## Reporting and Standardization

Easily unify and keep track of tasks, scheduling, checklists, and vendors across all locations. Access powerful reports and dashboards to gain valuable business insights so you can make informed decisions and watch your operation grow.

## Experienced Support

With 50+ years in the restaurant industry, we not only provide you with the tools you need to succeed, but plenty of support to go along with it-including a knowledge base, easy training videos, and a quick support team.
