Who Should Serve on Arctic Mill?

Nearly any food service operation can benefit from Arctic Mill's gorgeous coupe style, organic texture and the cost savings from using long-lasting melamine:

- Casual and fast casual restaurants
- Hotel dining
- Patio, outdoor and rooftop dining
- Catering, banquet and buffet service
- Employee dining
- College and university dining
- Business and industry dining

Who Should NOT Serve on Arctic Mill?

Melamine is an excellent material for most operations but porcelain performs better in a few areas. If your operation commonly uses the following techniques for cooking and serving, porcelain, or a mix of porcelain and melamine are better choices:

- Plated entrées requiring a steak knife
- Plated entrées requiring oven or salamander finishing
- As always, melamine should not be microwaved
