OUR APPROACH

We control each step of the process with our vertically integrated model—everything from growing our own livestock to packaging and delivery. That's how we provide our customers with best-in-class premium proteins at competitive prices with a 365-day supply guarantee.

PREMIUM PROTEINS

Our global network accesses a wide selection of premium proteins, including Lamb, Mutton, Goat, Beef, Pork, Veal and Venison. We're a one-stop supplier, where our customers can conveniently find everything they need.

A GROWING FAMILY FARM

Our family farming venture grew from humble beginnings. Now, 30 years later, Thomas Foods is Australia's largest family-owned and managed protein company, reaching over \$2 billion in international sales with offices in Australia, China, Japan, Canada, the Netherlands, the U.K., Brazil and the U.S.A. Our mission remains the same: Feeding Families Globally.

SUSTAINABLE & ETHICAL PRACTICES

To do things the right way at Thomas Foods, we focus on the Four Rs: Reduce, Replace, Remove, and Regenerate. We're actively working to continuously upgrade each of these areas.

- Third-party verified Livestock Assurance Program — Thomas Farms Guarantee (TFG) — ensures the highest-quality animal welfare raising standards are maintained
- Ongoing packaging improvements (e.g. 100% recyclable tray packs)
- Best-in-class production efficiency for water and energy use, and reduced GHG emissions*
